† +/- 0.5 inches per second. Speed will slow with one-piece doors.

The Genuine. The Original.

Standard features and benefits

DC power

Powerful 140V DC motor operates with minimal noise.

Quiet operation

Belt and chain drive provide smooth and quiet operation, perfect for room adjacent garages that demand minimal noise. Belt drive offers the ultimate in quiet operation.

CodeDodger® access security system

The latest in CodeDodger® technology that selects a code from billions of combinations each time a remote or wireless keypad are used. Prevents piracy of the radio signal for the utmost in security.

Auto seek dual frequency range

The opener listens for both the 315 or 390 MHz frequency emitted by the remote or wireless keypad, allowing reliable operation even in areas with frequency interference.

DoorDetect™ monitoring and diagnostic system

Delivers the optimal amount of power needed to efficiently and smoothly open even the heaviest doors. Stops the door when abnormal operation is detected for additional safety.

Self-diagnostic Safe-T-Beam® system

When objects pass through the infrared beam, the door automatically stops closing and then reverses.

Two-bulb lighting system

Two 100 Watt bulb lighting system provides added safety and convenience. Optional Overhead Door® LED bulb recommended.

Compatible with both HomeLink® and Car2U® systems – works with current and all previous versions. No additional external repeater kit or compatibility bridge needed.

† These accessories are only available for use with Odyssey® and Destiny® garage door openers.

§ The Overhead Door® Network Adapter (37350S) is required for operation of the Door Report Remote.
